## **Diversified Casework & Sheldon Labs Unite to be Stronger in the Laboratory Marketplace**

**Suring, WI** — Diversified Casework and Sheldon Labs, leading providers of laboratory casework solutions with over 160 years of operational excellence, are joining forces. Moving forward, we will be known as Diversified Casework. We will continue to promote and innovate Sheldon Labs' industry-leading products, such as the Axis Infinity and TEII Series, along with incorporating the flexibility of Diversified Casework's modern manufacturing facility. Diversified Casework will provide a complete offering of laboratory-grade casework, science furniture, and equipment, creating a unified, stronger presence in the laboratory marketplace.

"This consolidation will provide the market with the largest manufacturer of wood laboratory casework in the United States, focused on providing the highest level of service combined with premium quality products for the next one hundred years," said Dave Jahnke, president of Diversified Woodcrafts, Inc.

Diversified Casework will remain focused on providing the highest levels of responsive service, innovation, and quality that is the foundation on which it was built.
